

ARARAT 800

Our Service Philosophy

At Ararat 800 OSHC we provide a leisure-based program guided by the MyTime, Our Place Framework, this framework promotes the achievement of significant learning outcomes for all children.

Our service offers flexible indoor and outdoor experiences, we additionally support and incorporate the different needs of children of all ages, stages of development, genders, backgrounds, and abilities.

While our program is leisure based, we are committed to providing a selection of purposeful teaching activities. We believe that all children have the right to be treated with dignity and respect and we aim to create a space which is warm, respectful, and welcoming for all children and their families.

We believe each child has the right to be an active member of the community in which they live, to express their opinions and have their views included in any decision that may affect them.

We believe that all children are unique, confident, and capable learners. We strive to bring out the best in all children, through exposure to a broad spectrum of sensory-rich experiences and allowing the space for them to guide their own interests and learning.

Working in partnership with families, children, other educators, management, and members of the community is important to us, and we encourage their involvement in the development of our service and programs, this will ensure we are relevant and responsive to all needs.

We appreciate the significance of culture in our community and strive to implement culturally appropriate and inclusive activities into our program.
